

2nd Research Grant Winners List on March, 2017

Winner	Content of Research
<p>Osaka Seikei College Department of Apparel Design Associate Professor Yoshihiro Yamashita</p>	<p>Study of the nanofiber forming mechanism with a water-based urethane particles</p>
<p>Nagasaki University Associate Professor Hiroto Murakami</p>	<p>Development of Polyurethane Elastomers Crosslinked by Polyrotaxanes containing Aminocyclodextrin</p>
<p>Oita University Faculty of Engineering Professor Seiji Ujiie</p>	<p>Development of Novel Reactive Liquid Crystalline Polyurethanes and Their Application</p>
<p>Fabrication & Joining Section, Universiti Kuala Lumpur Malaysia France Institute. Dr. Norazwani Muhammad Zain</p>	<p>Mechanism of Self Healing of Properties of Waste Palm Cooking Oil based Smart Polyurethane Coating</p>
<p>University of Fukui Department of Materials Science and Engineering, Graduate School of Engineering, Professor Tamotsu Hashimoto</p>	<p>Synthesis of chemo-degradable and bio-degradable polyurethane elastomers containing castor-oil ester</p>
<p>Faculty of Science and Technology, Universiti Sains Islam Malaysia, Dr. ERNIE SUZANA BINTI ALI</p>	<p>Mechanism of Shape Memory Properties by cellulose Nanocrystal (CNC) in Palm Oil based Polyol</p>
