

3rd Research Grant Winners List on March, 2018

Winner	Content of Research
<p>Nagoya Institute of Technology Graduate School of Engineering Assistant Professor Mikihiro Hayashi</p>	<p>Creation of Metallo-Supramolecular Polyurethanes Utilizing Coordination Bonded Association for Development of New Functions</p>
<p>Kyoto University Graduate School of Engineering Associate Professor Kazuo Tanaka</p>	<p>Development of polyurethane-hybrids having mechanochromic luminescent property</p>
<p>Kinki University Faculty of Science and Engineering Associate Professor Yoshitane Imai</p>	<p>Development of plant growth promotion LED (CP-OLEDs) Wrapped by polyurethane</p>
<p>Hokkaido University Catalysis Science Institute Professor Tamaki Nakano</p>	<p>Synthesis, structure and properties of chiral polyurethanes emitting circularly polarized light</p>
<p>Tokyo Institute of Technology Institute of Materials Science and Technology Assistant Professor Hiromitsu Sogawa</p>	<p>Fabrication and characterization of rotaxane-based polyurethane having movable cross-linked points</p>
<p>Faculty of Applied Science Universiti Teknologi MARA Dr. Noor Najmi Biniti Bonnia</p>	<p>Modified Polyurethane in Concrete-PU Bonding Performance</p>
